The reality of my life and my feelings directly connect with my vision. I have been challenging to paint exactly what come into mind. For this exhibition, I try to stabilize the reality of my life, my expression by oil paints, and the image I see in mind onto canvas.

Keisuke Matsuda

Born in 1984. Keisuke Matsuda graduated from Kyoto City University of Arts with MFA of oil painting.

In 2009, he won The Jury (Naoki Sato) Award in Art Award Tokyo.

Matsuda says that he becomes united with the world surrounding himself when he succeeds in painting or drawing the images that appear in his mind before they disappear. Over time, his works have progressed in sophistication and having accomplished expressing these pure images onto canvas. In STANBILIZATION, Matsuda's fifth solo exhibition at eN arts, observers will enjoy Mtsuda's latest paintings in which he stabilizes those pure images with touches of artistic elements. Matssusa's bold compositions, powerful and persuasive brushstrokes, and unique color combinations will remain embedded in observers' mind. We hope you will enjoy Matsuda's world.
